## **330 Gymleco Shoulder Press**

300 series, Selectorized machines

The right feeling is immediately apparent thanks to the fine movement path in this Gymleco machine. From the start position, the movement naturally goes inwards until the handles meet above the head.

The adjustable backrest, along with the movement path, gives a natural feel regardless of the user's body size. The machine is equipped with counterweights for easier starting.

This is a smooth shoulder press that meets all different needs.
